

Project Title : A Novel Method for Handwritten Digit Recognition System

Team ID : PNT2022TMID25263

Before you collaborate :

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

Define your problem statement :

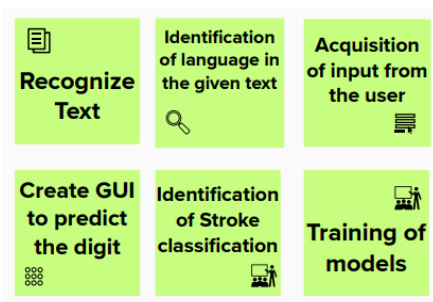

To develop a Novel Method For Handwritten Digit Recognition System?

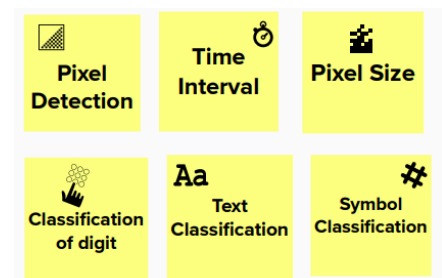

Brainstorm :

Write down any ideas that come to mind that address your problem statement.

Group ideas :

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

Prioritize :

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

After you collaborate :

You can export the mural as an image or pdf to share with members of your company who might find it helpful.
